MINUTES OF THE MEETING OF THE IQAC HELD ONLINE ON MARCH 9, 2022

The Vice-Chancellor extended a warm welcome to the Members of the IQAC and thanked the Members for attending the meeting of the IQAC to decide on various academic issues. The following items were placed before the IQAC. After detailed deliberations the following recommendations were made:

1) Minutes of the Meeting of the IQAC held online on December 10, 2021 and action taken thereon

The Vice-Chancellor appraised the members that the draft MOU and the Draft Regulations for offering a course on M.A.(Criminal Justice System) were prepared and sent to Sardar Vallabhbhai Patel National Police Academy (SVPNPA) for their consideration and feedback in January, 2022. He also informed the members that Draft MOU and draft Regulations for M.A.(Taxation Laws) was also sent to National Academy of Direct Taxes (NADT), Nagpur in February, 2022 for their feedback. After receiving the feedback from the respective institutions the university will offer the programmes with necessary approvals of the university bodies.

He further informed the members that proposal for creation of positions was placed before the Academic Council in its meeting held on January 10, 2022 and the same was approved. The recommendation of the Academic Council would be placed in the next Executive Council for its approval.

He also informed the members that the AQAR 2019-20 was submitted as per the deadline on December 31, 2021 on the NAAC portal.

The IQAC approved the action taken on the decisions taken in the meeting held on December 10, 2021.

2) Amendments to Regulations for Ph.D. Programme

The Vice-Chancellor informed the IQAC members that for the NIRF Ranking purpose the Ph.D. awarded in part time mode were not being considered even though the UGC Regulations provide for registration to the doctoral program in both part time and full time. He further informed the members that NALSAR follows one course work and other study requirements for all its doctoral candidates and the same degree is awarded to all of them. Yet, this categorization has resulted in the unintended consequence of devaluing the degree of the University. The IQAC members deliberated on the same and recommended to modify the NALSAR Ph.D. Regulations and remove the categorization in enrolments as the intensity of the course is same for both the full time and part time scholars.

3) Establishment of hybrid class rooms for academic purpose

The Vice-Chancellor informed the members that the Executive Council at its meeting held on November 3, 2021 had approved installation of interactive digital touch screen LED panel 86" + and integrating with digital podium in all class rooms(15

No's), with an approximate budget of Rs.1.5 Crores and also approved assigning the job of establishment of e-studios to Broadcast Engineering Consultants India Limited (BECIL), Government of India enterprise. When BECIL came to the University to conduct a survey for e-studios, the University requested them to conduct the survey and make suggestions for hybrid classrooms also. BECIL conducted a survey and submitted a proposal to the University about the hybrid class rooms. BECIL in its proposal has suggested that each classroom should have digital Podium, Audio equipment & Interactive display setup with virtual classroom facility connecting around 100 remote users with minimal acoustic treatments (false ceiling, acoustic wall paneling, lecture table). The cost of the same would be approximately Rs.5.25 Crores for 15 class rooms.

Due to the new wave of Covid-19, the University again decided to go for online teaching as physical classes which were planned from January 6, 2022 had to be called off. The students who in view of Covid-19 uncertainty also requested for hybrid classes and technological upgradation of the classrooms, therefore the proposal was placed before the Academic Council in its meeting held on January 10, 2022. The recommendation of the Academic Council will be placed before the Executive Council for its approval in its next meeting.

The IQAC members appreciated the idea of the up gradation of the existing classrooms as hybrid classrooms with new technology as it would be very useful in the present situation of uncertainty in opening of the university campus completely in physical mode.
