With reference to the 1<sup>st</sup> cited above, the discussions were held with MNRE officials for the clarification on 30% subsidy of MNRE, for Nalsar University. The MNRE officials have given clarifications on the sanction of 200KWp grid connected solar PV rooftop Power Plant in Nalsar University of Law, Hyderabad, and informed that as per MNRE guidelines this project is not covered under 30% subsidy scheme, and MNRE will provide incentives for Government Buildings & Government Institutions. As per latest MNRE guidelines this project will be eligible to get incentives of 25% of the cost and the amount will be reimbursed basing on the sanction of the project, by MNRE, Government of India after completion of the project and submission of claims. (The above references 5<sup>th</sup> & 6<sup>th</sup> copies are here with enclosed for your information.)

Hence, it is requested to transfer the amount of Rs.87,16,481/- to TSREDCO in order to issue the work order to successful bidder to take up the works at earliest date. The copy of the bank mandate form is enclosed here with enclosed for transfer of amount.

- 2) All the SPV modules irrespective of the capacity shall have RFID tags laminated inside the module. The RFID scanner has to be provided by supplier for verification. If modules are procured locally pre-dispatch inspection by TSREDCO officials has to be done. The manufacturer should provide the following minimum information laminated inside the module:
  - Made in India (to be subscribed in words)
  - Company name / logo
  - Module number (it should indicate the voltage and rated wattage of the module)
  - Serial number
  - Year of make
- 3) The following makes should be supply for the installations:
  - SPV Module Makes: - M/s. Renewsys.
  - Inverter Make: - M/s. DELTA Inverters
  - AC cable makes:- Polycab
  - DC cable makes:- Polycab
- 4) The Potential Induced Degradation (PID) test for solar modules will be mandatory from 1<sup>st</sup> April 2017. In order to simulate the Indian operating conditions, it was decided that during PID test of the module, it will be subjected to conditioning for 3rounds at 85°C and 85% RH for a period of 96 hours. In case the degradation is more than 5% after the test, the module will be treated as failed the PID test. The system voltage details of the module to be provided by the module manufacturer.

- 5) The latest version of IEC 61215 has been published and all the test labs should upgrade themselves for the same. The latest version will become mandatory from 1<sup>st</sup> June 2017.
- 6) The inverters should be tested as per IEC standards. The following criteria should be followed:
- The benchmarking efficiency criteria for Grid Tied (string inverters) inverter
    - At nominal voltage and full load is  $\geq 95\%$ .
    - For load  $\geq 25\%$  is  $\geq 92\%$ .
  - In case of standalone / grid interactive inverter the bench marking efficiency criteria.
    - At full load is 85%
    - For the load  $\geq 25\%$  is 80%
  - No load losses should not be more than 5%.

The following tests are to be conducted on the inverters

- Efficiency measurement as per IS/IEC 61683 (for system with no MPPT)
  - Overall efficiency for Grid Tied inverter as per EN50530
  - Islanding Prevention test as per IS 16169/IEC 62116
  - PV system characteristics of utility interface as per IEC 61727 (the system should meet all the clauses as per the standard except the clause 5.2.2 of IEC 61727. In case of clause 5.2.2 it should withstand the over /under frequency in the range of 47 to 52Hz)
  - Overall charge controller efficiency should be  $\geq 85\%$  at  $\geq 10\%$  load and  $\geq 92\%$  at full load.
  - System should have IP 65 certification for outdoor use IP 21 & 22 for indoor use.
  - Environmental testing as per IEC 60068-2-(1,2,14&30)
- 7) After completion of project, the supplier has to submit the actual completion report containing the details of the components installed, layout diagram, copies of the above mentioned certificates of PV Modules, charge controllers, inverters, etc,
- 8) Supplier shall submit the performance guarantee and Warranty Certificates for a period of 5 years for inverters and performance guarantee for a period of 25 years for SPV modules as per MNRE guidelines.
