

Volleyball RULES

1. All standard FIVB rules applicable.
2. In playing 6, there should be a minimum of 1 girl in the team.
3. "Rotation" rule will be followed during all matches but only for service.
4. All matches will be best out of 3 sets. Each set will be 25 points. Final set 15 points
5. The top three teams will qualify for the playoffs, where the table-topper will play the final directly. In case there is a tie, the team with the better score difference will advance further.
6. The umpires for the game will be decided by OC
7. In case of any dispute during the match, the decision of the OC will be considered final and binding.
8. If a team arrives late by more than 15 minutes, it will be awarded a 2-0(25-0, 25 - 0) loss.

9. Line Cut

A player may step on the center line but must not fully cross into the opponent's court. Crossing under the net is only allowed if it doesn't interfere with the opponent's play. If a player's entire foot or body goes into the opponent's court and causes disruption, it's a fault.

Any interference or danger to opponents due to such crossing results in loss of point.

10. Overreach

Players may reach over the net only when blocking or during the follow-through of an attack.

Touching the ball on the opponent's side before they complete their play is not allowed. Intercepting a set or a pass before the ball crosses the net is considered overreach.

Any premature contact with the ball over the net results in a point to the opposing team.
